### Allard Students Celebrate Earth Day

*Allard first-graders decorated Earth Day T-shirts with their parents this week.*

Allard Elementary School first-graders were “green” with environmentalism this week as they observed Earth Day and prepared to participate in the annual Moon Township Earth Day Celebration. Allard students have been part of the township’s Earth Day celebration for more than 10 years.

On Tuesday, parents joined their children to paint nature T-shirts adorned with birds, trees and suns and students are encouraged to wear their T-shirt to the township’s Earth Day event held at Robin Hill Park on Sunday from 1 to 4 p.m.

At the event, first-grade teachers Karen Lewis and Karen Chodikov will display items created by their students out of recycled items including games, toys and other useful devices. As the only elementary school in attendance, the teachers also offer children the chance to make their own recycling project – binoculars from toilet paper rolls, as their students were required to do in past weeks.

Families are invited to attend the Earth Day event that includes interactive, environmental displays, Birds of Prey exhibition, Carnegie Science Center activities and Science Fun with Bayer Corporation.

The event is sponsored by Moon Township’s Parks and Recreation Department and Environmental Advisory Council.
