School Directors Sign High School Construction Contracts

Board of Education President Mark Scappe and Secretary Lisa Wolowicz sign construction contracts for the new Moon Area High School.

Moon Area School District Board of Education President Mark Scappe and Secretary Lisa Wolowicz signed construction contracts for the new high school building along with the project's 12 contractors on Jan. 29 in the middle school library.

The contracts total \$61.7 million and mark a large step toward the secondary schools renovation and construction project's fruition.

Almost all facets of the building's construction are covered in the contracts including plumbing, stage equipment, landscaping and electrical elements.

The signing followed a Jan. 12 awarding of bids by school directors during their monthly business meeting. Construction will begin near the baseball field behind the middle school in coming weeks following a public groundbreaking ceremony on Feb. 10.

Approximately 186,000 square-feet, the new Moon Area High School will hold nearly 1,200 Moon Area students and also will house central administration offices. The high school is slated for a winter 2010 completion date.
