

WHAT IS SNAP&READ?

Log in with
your
moonarea.net
account!

Snap&Read is the next generation reading tool for Google Chrome Browsers, iPad, and more, that can cover the diverse reading needs. It **reads** both accessible and inaccessible **text aloud**, it **adjusts text readability** (Flesch-Kincaid) and remove distractions with text overlay. Oh, and it **translates!**.

BUT THATS NOT ALL!

* Your students can also **annotate** any PDF or **read paper worksheets**, and **create real-time floating textual outlines** with images!
