

## SAVVAS (Formerly Pearson) Walkthrough

MASD recently updated how we connect to Savvas services, and how we sign-in.

As of 9/3/2020 students and staff can access Savvas materials through 1 of 4 places. Once you go through this process once you can bookmark the final page and bypass the sites, we have posted the links at:

1. The Moon Area Website [Technology Page](#)
2. [Skyward](#) District New Feed:

The screenshot shows a 'District News' feed with three items. The first item is 'Lincoln Learning' with the text 'Welcome to your digital resources library. Log in using your MASD credentials.' The second item is 'Comply' with the text 'Log in using your PA-Etep username and password.' The third item is 'Savvas Easy Bridge' with the text 'Savvas (Formerly Pearson)' and a numbered list: '1. Click the Savvas EasyBridge Plus Link.' and '2. You will be redirected to a district login page. Enter your district network username and password.' The 'Savvas Easy Bridge' item is circled in blue. An 'Edit' button is visible in the bottom right corner of the feed.

3. [Clever](#) District Resources
4. Elementary iPads: The link appears as an app.

After clicking on the link, from whichever of the above sites, it will ask you to “Log in with Active Directory”. Login using your full email and password for MASD. Students emails are their student numbers followed by @moonarea.net ([0000@moonarea.net](mailto:0000@moonarea.net)).

Note: If you use chrome and save your passwords you will most likely be able to skip this step if your browser logs you into clever automatically.

From there you will be redirected from clever to the Savvas EasyBridge page.

You now have access to all your materials through Savvas. Staff should see their classes and students should see their resources as well.
